Forté Holdings  
FortéEMR 3.0

To Drummond Group:

For public release and exact language used for our website and marketing distributions:

*FortéEMR is an EMR application that is sold as a one-time purchase with one provider license included. An additional license cost will be applied for any providers beyond the first. There are no other fees required to keep the original license active. The one-time purchase includes the software license, initial training and technical support. The EMR allows users to send and receive Direct-based messages to/from other users of certified health IT systems. Direct messages may include clinical data, notes, and other information, subject to the limitations noted. Our Direct offerings support related Meaningful Use and ONC requirements for sending and receiving transitions of care summary documents. There are no additional contractual or technical/practical limitations.*

*This certified product-version will include all updates for that certified product-version free of charge. Any future certified product-versions may require a nominal upgrade fee in order for the end-user to maintain compliance. No additional contractual or technical/practical limitations.*

*This certified product-version may require annual costs for clients who wish to e-prescribe within the application. Should a provider wish to establish a new e-prescribe account they will need to contact Forté Holdings and we will provide them with the cost. We have an exclusive relationship with DoseSpot and they are the sole provider of e-prescribe integration.*

*This certified product-version does not require any on-going support or maintenance to utilize the application. Furthermore, a limited amount of training sessions on the certified product-version are included with purchase. If a client wishes to have technical support or further training on the product, technical support and training are available for purchase.*

*This language is displayed on our website at <http://chiro8000.com/certification.php>.*

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product-version.

We understand and agree that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosures information.

We understand and agree that we will provide to Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by your organization regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

A handwritten signature in black ink, appearing to be 'MAH', written in a cursive style.
