

Software Subscriptions ARE TOXIC

Paying \$200-\$300 each month in subscription fees?
Do you even own your software license?

→ **Stop overpaying.**

There is a better way.

Own Your Software for Free.

FREE

OWN

Free – 2 – Own

Federal Grant Based Stimulus Plan

(funds only available for a limited time)

How It Works

· Step 1: INTERESTED?

- Do a Chiro8000 demo with us (first things first - make sure you like it).

· Step 2: FREE

How is this possible?

- We have access to federal telemedicine grants for new clients.
- Zero grant paperwork that your office needs to do. Zero.
- We cover all the risk. Even if we don't get reimbursed, you don't pay a penny.

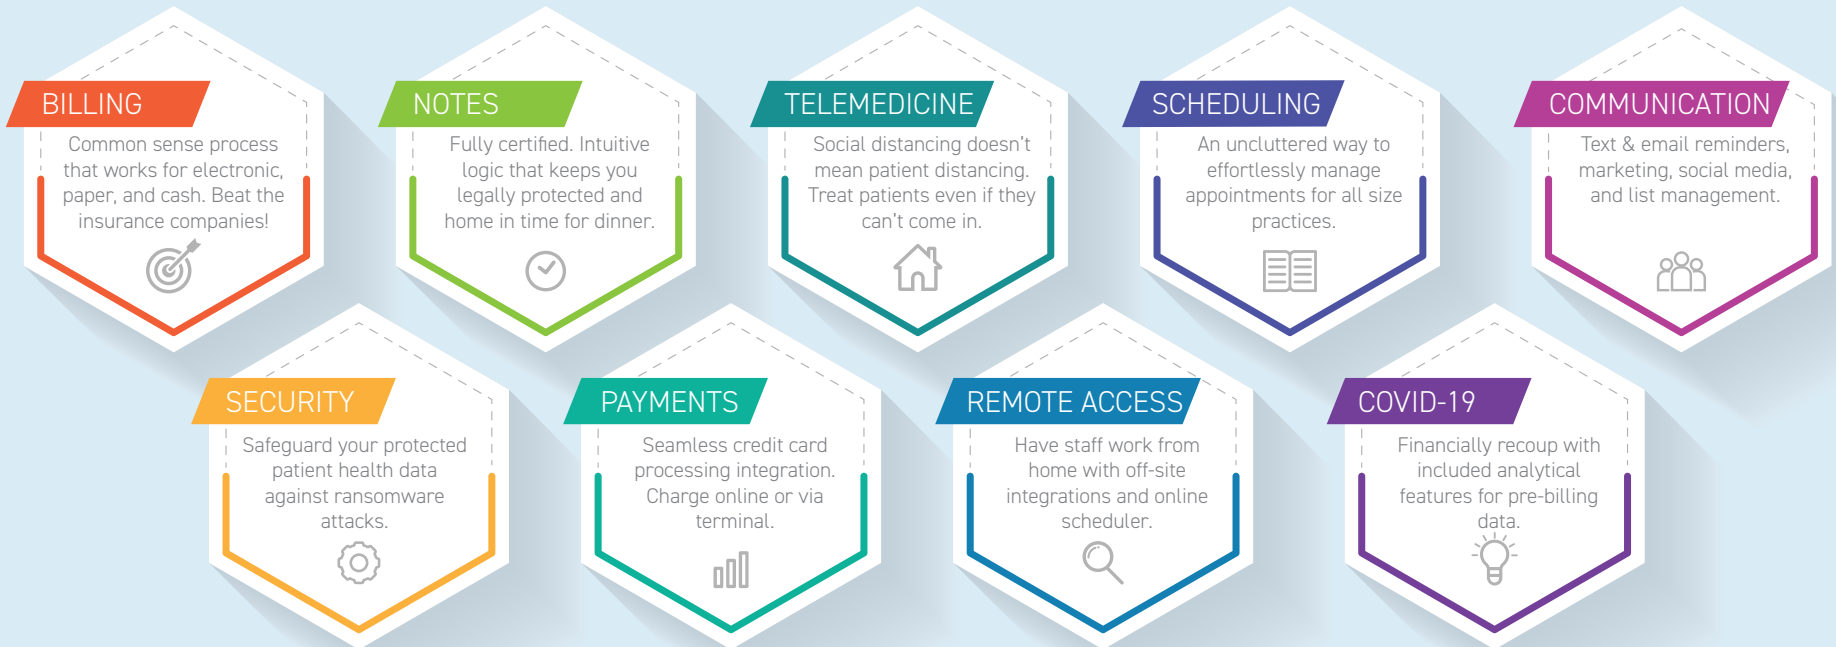

· Step 3: OWN

- Enroll in our technical support/maintenance plan (cost is under \$100/mo). Our technical support is unlimited use, live-person, U.S. based, and includes version upgrades at no extra cost.
- Once the minimum term is up with your support plan, you can cancel anytime and keep your license. You own your software from day 1. This is not a software subscription.

FREE **2** OWN
Chiro8000 top of the line software
Full installation & training included
You own your software & your data
No software subscriptions or payment plans

We Understand You.

The functions you need. None of the feature 'noise' you don't.
Easy to learn. Truly friendly tech support. Reliable. Certified.

It's Time to Break Away from High Priced Subscriptions

Any of these look familiar?

	Monthly Subscription	Annual Cost	Estimated 10-Year Expense	Do You Own It?
Software 1 	\$180/mo 😞	\$2,160/yr 😞	\$22,572 😞	No! 😞
Software 2 	\$250/mo 😞	\$3,000/yr 😞	\$37,080 😞	No! 😞
Software 3 	\$300/mo 😞	\$3,600/yr 😞	\$44,460 😞	No! 😞

Instead - OWN your software for FREE.

Not a software subscription. Not a payment plan.

Certified chiropractic software from the company with 30-years of industry experience. Live-person complete training. The absolute most helpful and most friendly tech support around.

Only catch: extremely limited time stimulus offer.
